## ABOUT ME

### After Highschool

After completing Highschool I was employed by the biggest Custom Harvesting Company in North America (Olsen Custom Farms). I worked for 2 years in the United States of America to financially support myself in my pursuit of a degree in Information Technology.

## WORK EXPERIENCE

I received a contract from North-West University to be a student assistant where I helped various students to improve their marks and their understanding of C# as a programming language.

This year I also have a contract with the NWU to help students with manipulating databases using SQL integrated in C#.
