- Team Player

Stephan Schmidt

Degree: BSc Information Technology

EDUCATION

North-West University Potchefstroom	2022 - 2024 (Expected)
Hoërskool Nylstroom	2015 - 2019

Academic Record

In my first year, I obtained Golden Key for my academic achievements. The Golden Key is obtained by placing in the top 15% of students from a large number of universities registered with the Golden Key organization,

University Results:

1st Year: **77.3%** Average
2nd Year: **75.4%** Average
3rd Year: 1st Semester **73%** Average

High School Results:

Matric: **72.8 %** Average

ABOUT ME

WORK EXPERIENCE

In **June/July of 2024** I worked in **Semantic Web development**, the goal was to create a database which supports semantic web standards and can store linked data in the form of Graph data using JSON-LD. We made use of Fluree. I was also required to convert an existing ontology in the form of RDF/OWL to JSON-LD so that it could be processed into the database.

After Highschool

After completing Highschool I was employed by the biggest Custom Harvesting Company in North America (Olsen Custom Farms). I worked for 2 years in the United States of America to financially support myself in my pursuit of a degree in Information Technology. Here is a list of the various amazing states I had the opportunity to work in Kansas, Nebraska, Oklahoma, South-Dekota, North-Dekota, Minnesota.
